

AUDNET Hearing Group Announces Supply Agreement With Audifon

Hopkins, MN - June 1, 2018 - AUDNET Hearing Group, an interdisciplinary business support and group purchasing service for hearing health care professionals, has today announced that they have entered into a supply agreement with Audifon, a German-based manufacturer of digital RIC, thin-tube, BTE and ITE products. Through this agreement, AUDNET Hearing Group members now have access to an additional resource of technically advanced products at competitive entry-level prices.

"We recognize that in today's market, our members must have access to technically solid products at a wide variety of price levels. With the addition of the Audifon products, we have added another layer of outstanding technology at entry-level prices to our member's product options arsenal", stated Dale Thorstad, President of AUDNET Hearing Group.

"We are excited about this opportunity to make our products available to a greater number of U.S. hearing health care providers by establishing this agreement with AUDNET Hearing Group", stated Joerg Hensel, Managing Director for Audifon.
